WWW.DALLASFIRERESCUE.COM

Adopt-A-Station is a program designed to assist the City in its efforts to maintain, refurbish, and renovate fire stations. Citizens and businesses are encouraged to involve themselves within the community and contribute time, funds, goods or services to benefit our men and women firefighters and paramedics.

You recognize the importance of your local fire station team. You know they put it on the line everyday to protect your life, your family, and your business. Why not make a difference in their lives and let them know how much you value your local fire station?

Adopt · A · Station is a new initiative we've developed to help make it easy for you to sponsor a station of your choice. And it's simple! You can choose to donate funds, donate services, or get specific with a listing of what our firefighters need in the station and for the station to improve their living quarters.

All of your donations will go directly for the benefit of Dallas Fire-Rescue firefighters. If you so choose, you may designate a specific station you would like your donation to go to – possibly your local station or one close to your place of business!

We have created a website that makes it easy for you to find the stations closest to you with lists of items they are in need of. Please visit www.dallasfirerescue.com and click on the Adopt-A-Station link. There you will also find answers to frequently asked questions and more information.

Get involved and make a difference for the men and women who protect us everyday. Adopt a friend, adopt your team of firefighters and paramedics – Adopt · A · Station!

For your kind donation, you will receive: signage at your adopted station, indicating your name, company & logo, acknowledgement in our internal and external newsletter of your sponsorship, acknowledgement at our Annual Banquet, Certificate of Sponsorship, and added to the Wall of Honor at our Administration Building.

We are giving you, our citizens, a chance to say “Thank You” and deepen your community ties.
