INCIDENT DESCRIPTION				
<p>A 3-alarm fire this morning at Knob Oaks Condos displaced residents from four units and sent two firefighters to a local medical facility with minor injuries. Eleven units were damaged by this wind driven fire. Seven of the eleven units were vacant while only four had residents. Of those four, only one resident was at home. The fire was determined to be electrical in nature in the attic above a second floor apartment. Red Cross and apartment management were attending to the displaced residents.</p>
