INCIDENT DESCRIPTION				
<p><b>Three Story Apartment Fire Quickly Extinguished By Dallas Firefighters</b></p> <p>This afternoon a 2-alarm fire damaged three units of the Beacon Hill Apartments in Northeast Dallas. The initial responding fire companies requested additional firefighters to assist in extinguishing the intense blaze. Fire Investigators have determined that an electrical short in a first floor unit caused the fire. Apartment representatives and The American Red Cross are working to meet the immediate needs of the three families affected by the fire.</p>
